Symbols Explained

SUPERSET: performing two or more exercises back to back with no rest in between.

LIGHT INTENSITY - working with this weight does not create strong muscle tension, you can easily concentrate on the technique. After completing all reps, you feel that you can safely do 4-6 reps more, slight muscle fatigue, slightly rapid breathing, and heart rate.

MEDIUM INTENSITY - moderately heavy working weight, you need to be physically and psychologically concentrated, after completing the set you should feel 3-4 reps in reserve, significant muscle fatigue, rapid breathing.

$\frac{90\%}{2}$ 1; - optional set recommended to lift, if you feel to do your best now

+ STRAPS - lifting straps
